

# Minor Ailments Service

Ask your pharmacist for help if you have one of the conditions on the list below – your pharmacist can provide advice and treatment for most people without you needing to see a doctor first.

- ✓ Conjunctivitis
- ✓ Cystitis
- ✓ Impetigo
- ✓ Scabies
- ✓ Threadworm
- ✓ Vaginal thrush
- ✓ Oral Thrush in Infants

## How does it work?

- Your consultation will always be confidential with a qualified pharmacist in a private room.
- The pharmacist can supply some medicines to you that normally would need a prescription, without you having to see your doctor first.

## How much does it cost?

As this is an NHS service, the consultation is free. If the pharmacist agrees that you need medicines they will be provided free of charge for people who get free prescriptions, and for no more than the prescription charge if you have to pay.
